Career Objective

I am a full-stack engineer specializing in scalable, data-driven applications built with React, [Next.js](#), Node.js and TypeScript. My goal is to create clean, efficient, and user-centered interfaces while working well in remote, product-focused teams.

Core Skills

- **Languages & Frameworks:** TypeScript, JavaScript (ES6+), PHP, React.js, Next.js, Redux, Laravel, NodeJS, NestJS, ExpressJS.
- **Styling & Animation:** Tailwind CSS, Sass, Ant Design, Responsive & Accessible UI, Component-Driven Architecture.
- **Databases:** MongoDB, MySQL, SQL, PostgreSQL.
- **Visualization:** Recharts, Chart.js, JSON Data Rendering.
- **Workflow & Tools:** Git, GitHub Actions, CI/CD, Vercel, Figma.

Experiences

MacroHealthPlus: Software Engineer (1 Feb 2025 - Present) 11 Months

- Led front panel implementation of SaaS products in the healthcare domain.
- Developed reusable React components and handled critical UI/UX flows.
- Worked across full stack with Laravel and MySQL for admin dashboards and appointment modules.

Zaimah Technologies Ltd: Software Engineer (Mar 2023 - Feb 2025) - 2 Years

- Utilized React to handle critical scenarios in front-end development at **Zaimah Technologies Ltd.**, effectively contributing to projects such as **GreatDoc POS** and a **SaaS** application for managing all products.
- Developed expertise in solving complex problems by emphasizing scalability, creating reusable components, and ensuring a flawless user experience.

999 It Solution: Frontend Developer (Feb 2022 - Apr 2023) - 1 Year 3 months

- Built scalable UI components with design consistency across multiple platforms.
- Created and maintained dashboard systems like **Ceburu** using modern frontend architecture.

Notable Projects

[Lottieicon](#) -

- A rich JSON-based animation library with 4,800+ icons. Led frontend development, CI/CD automation, and Tailwind-based component structure.

[Ceburu Dashboard](#) -

- AI-powered IT monitoring dashboard; built reusable and responsive components with React.js and Redux.

[Threads](#) -

- A self-built social media app featuring post sharing, commenting, and trending topics; fully responsive and PWA-supported with text formatting. Using Next.js Server Actions, Tailwind CSS, and Clerk Auth.

Educations & Qualifications

Name of Exam	Department	Board/University	CGPA/Result	Year
B.Sc.	Computer Science Engineering	Sonargoan University	Not Appear	2026
Diploma	Computer Engineering	Dhaka	3.58	2023
